By W. H. Gibson Mingie

AT TULSA, June 17.—The day after tomorrow, Sunday, June 18, at 7:30 a. m. a demonstration of the new "World Writer" typewriter will be given at the Tulsa Hotel. The machine is a new model, and is being demonstrated by the manufacturer, W. H. Gibson Mingie, who is a resident of Tulsa. The machine is a new model, and is being demonstrated by the manufacturer, W. H. Gibson Mingie, who is a resident of Tulsa. The machine is a new model, and is being demonstrated by the manufacturer, W. H. Gibson Mingie, who is a resident of Tulsa.

In a private conversation with a few friends, Mr. Mingie said that the "World Writer" is a new model, and is being demonstrated by the manufacturer, W. H. Gibson Mingie, who is a resident of Tulsa. The machine is a new model, and is being demonstrated by the manufacturer, W. H. Gibson Mingie, who is a resident of Tulsa. The machine is a new model, and is being demonstrated by the manufacturer, W. H. Gibson Mingie, who is a resident of Tulsa.

Labeling the Same.
In the beginning I stated that the only difference between the "World Writer" and the "World Writer" is in the labeling. The machine is a new model, and is being demonstrated by the manufacturer, W. H. Gibson Mingie, who is a resident of Tulsa. The machine is a new model, and is being demonstrated by the manufacturer, W. H. Gibson Mingie, who is a resident of Tulsa.

It is surprising how popular the "World Writer" is. I was talking with a few friends, and they all said that they had seen the machine. The machine is a new model, and is being demonstrated by the manufacturer, W. H. Gibson Mingie, who is a resident of Tulsa. The machine is a new model, and is being demonstrated by the manufacturer, W. H. Gibson Mingie, who is a resident of Tulsa.

The Personal Element

In Banking as well as in any other business it is most important that the individual requirements of each customer be carefully studied and met.

We cordially invite your account, whether big or small. Our officers will be pleased to have you call upon them personally regarding your banking requirements.

long time since they have had access to the public, and believe me, they have taken advantage of that long coveted opportunity.

You may have heard of the "World Writer" typewriter. They are all related to the "World Writer" typewriter. They are all related to the "World Writer" typewriter. They are all related to the "World Writer" typewriter. They are all related to the "World Writer" typewriter.

I have thought of the "World Writer" typewriter. I have thought of the "World Writer" typewriter. I have thought of the "World Writer" typewriter. I have thought of the "World Writer" typewriter. I have thought of the "World Writer" typewriter.

Irvin Cobb says the people of St. Louis don't know how to entertain a national convention, although as they haven't doubled the price on anything, now, I don't know where Cobb

was, but I know if one appreciates his appetite here under \$2.50, he is a dandy. I know if one appreciates his appetite here under \$2.50, he is a dandy. I know if one appreciates his appetite here under \$2.50, he is a dandy.

There is a very kind, for he told me he remembered it, and wondered at the time what influence had made it possible for him to be victorious in that particular section. He has aged some since then; in fact, he has run some since then. To be exact, he is some runner, and it has affected the growth of his hair. His bald diamond looks as if he had been playing the center field clear back to the fence, for the bald reaches his collar in the back. But he is just as apt in action, for he walks with a spring and speaks with the same fire he did years ago. Today in convention the chairman was unable to preserve order for at least one-half hour on account of the galleries calling for Bryan, and Bryan had slipped out and was away, yet the crowd would not remain silent until the chairman announced that Mr. Bryan had left the conclave but they would be given ample opportunity to hear him later.

There will be a "chute" opens here, and it will cut it aside and cut loose another one, and so on.

The work of improving the grounds has started, and by the first of September the old Dry Farming congress grounds and buildings will resemble a miniature Oklahoma state fair. There will be a beautiful lawn sprinkled with flower gardens and woven with spacious walks. The present board fence is to be torn down and replaced with a wire fence. All the buildings are to be painted white. Instead of canvas "windows", permanent ones of glass will be installed. The floors of all exhibit buildings will be raised and drained and paved with chat and sawdust.

stern like the depth of the Mammoth cave when I got out of this.

An Ancient Friend.
A word about Bryan. I met him today, and had a very pleasant chat with him. Away back years ago, when I was in my own home country in California, I met him. I met him, but I met him in the country also. He carried the county. I don't know whether I had anything to do with it or not, but I had to tell him about it. He was very kind, for he told me he remembered it, and wondered at the time what influence had made it possible for him to be victorious in that particular section. He has aged some since then; in fact, he has run some since then. To be exact, he is some runner, and it has affected the growth of his hair. His bald diamond looks as if he had been playing the center field clear back to the fence, for the bald reaches his collar in the back. But he is just as apt in action, for he walks with a spring and speaks with the same fire he did years ago. Today in convention the chairman was unable to preserve order for at least one-half hour on account of the galleries calling for Bryan, and Bryan had slipped out and was away, yet the crowd would not remain silent until the chairman announced that Mr. Bryan had left the conclave but they would be given ample opportunity to hear him later.

GOODYEAR Cord Tires were once considered the special prerogative of the larger and costlier cars.

But now a tremendous demand has sprung up among owners of cars of every size, and almost every class.

For these motorists also are keen for the longer gas mileage, the power-saving and the freedom from stone-bruise which are assured by Goodyear Cord Tires.

And they do not let a slightly higher price stand in the way of getting such advantages and economies.

Goodyear No-Hack Cord Tires are made strong, safe and steady by these unique advantages:

Jaws and joints are combated by great oversteer and the suppleness of Goodyear Cord construction.

They are easy to put on and take off because they do not rust fast to the rim.

Blow-outs are lessened by our No-Rim-Cut feature.

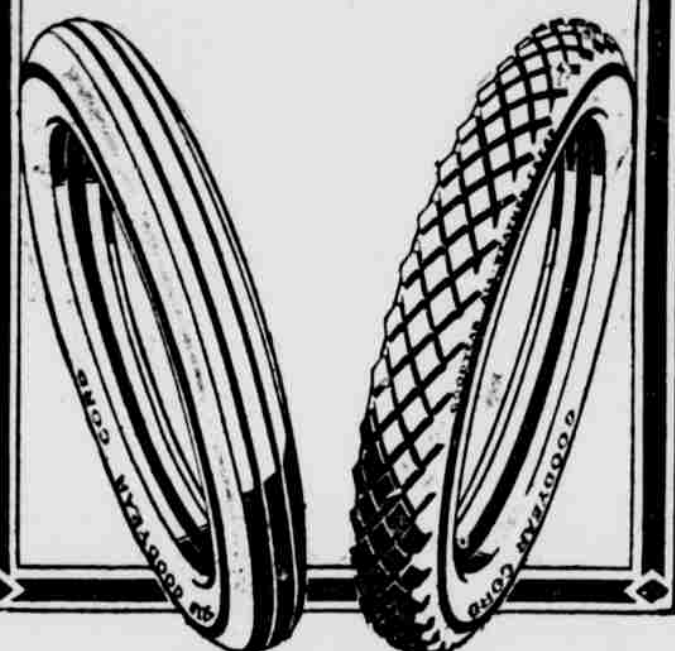

Punctures and skidding are reduced by our Double-Block All-Weather Tread.

Loose Treads are diminished by our Wrapped Tread Process.

Blowing off the rim is prevented by our Braided Piano Wire Base.

GOODYEAR
CORD
TIRES

Goodyear Tires, Heavy Tread Tires and "Fire Guard" Automobiles are easy to get from Goodyear Service Stations everywhere.

Madame Fanny's Liquid Powder, 3 boxes \$1.00

conclusion is warranted that there was no just cause for this action; that they had no case; that the purpose was more to hinder and prevent the success and development of the Ball Manufacturing company than anything else, otherwise they would have been ready for trial, would have had their witnesses and the evidence ready, and would not have voluntarily dismissed this case at their cost. This victory for the Ball Manufacturing company represents one more difficulty surmounted; evidences their stability and soundness and demonstrates their continued success and accomplishment. Thirty branches are now established through which is being handled nearly one hundred thousand dollars worth of merchandise monthly and their progress and development is steady and unimpeded, notwithstanding the obstacles thrown in their way by their adversaries.—Adv.
